They are not wise, these three small men. They are simple in the way of children. They bear little semblance to the three Princes who came to Christ's manger to pay homage . . . save that they, too, bear gifts, offering them with a song, a Christmas carol upon their lips.

Behind them stands the Church, the home of Christ, the house that welcomes those who would visit Him. These youngsters are among His regular visitors, and for them Christmas has a very special meaning.

Though they will have a tree trimmed with shining ornaments, brightly wrapped packages, fun and laughter, they will be deeply conscious of the true meaning of this glorious season. Through their church they have learned the wonders of God's love-which endures not just at Christmas but throughout every day of every

CHRISTMAS CAROL

They are not wise, these three small men. They are simple in the way of children. They bear little semblance to the three Princes who came to Christ's manger to pay homage . . . save that they, too, bear gifts, offering them with a song, a Christmas carol upon their lips.

Behind them stands the Church, the home of Christ, the house that welcomes those who would visit Him. These youngsters are among His regular visitors, and for them Christmas has a very special meaning.

Though they will have a tree trimmed with shining ornaments, brightly wrapped packages, fun and laughter, they will be deeply conscious of the true meaning of this glorious season. Through their church they have learned the wonders of God's love-which endures not just at Christmas but throughout every day of every

#### THE CHURCH FOR ALL . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the bailding of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regukarty and sead your Bible daily.

### Parking Tickets And Discrimination

One of the advantages of being the editor of a newspaper is that you have the opportunity or the privilege to sound off publicly about things to which you take exception.

At this moment we are complaining because our feelings of justice and equity have been disturbed by a member of the Police Department.

We have been, we feel, the victim of undue discrimination in the issuance of parking tickets.

Over the years we have paid our share of parking tickets, issued legitimately for overtime parking on parking meters. Never have we voiced a squawk. Nor would we now had we and two other autoists been accorded the same treatment as four others parked along Canal Street.

At the time we have in mind, yesterday afternoon, eight automobiles were parked on Canal Street between Mechanic and the Western Maryland Railway. Six of them were parked on meters, but only one legally, time having expired on the others. Of the two remaining cars, one was parked on a red line beside a fire plug and the other on a combination red and yellow line.

Of the seven illegally parked automobiles, only three received tickets and the other four went free. When the policeman who issued the tags was asked, "Why did I get a ticket and the rest of these people didn't?", his answer was "I ran out of tickets." He added that he was going to police headquarters to get some more and the intimation was that he

Two and a half hours later (it takes less than five minutes to walk to police headquarters), one of the untagged cars remained untagged and no money had been put in the meter. One of the tagged cars now had money in the meter, the second tagged car was still in violation and the third one had moved on. A fourth car, the one parked on the red and yellow line, was still there and untagged and the rest of the original eight cars had moved away.

We are not complaining about receiving a ticket for a parking meter violation of which we were guilty, but we are complaining about the inequity and the discrimination. If one car was tagged for violation, then the others should have been. If some were not tagged, then none should have received a ticket.

If you perhaps have gotten a ticket in the past under circumstances similar to those above, you certainly are free to feel that we are speaking in your behalf too. If the parking laws are going to be enforced, they should be enforced for everyone.

### Another One Of Those

Apparently there are limitless funds for all sorts of efforts to flood the country with one side of the problems that face us. There is the ADA (Americans for Democratic Action), the National Committee for an Effective Congress which collects money for congressional campaigns and passes it on to favorites of both parties, thus breaking down the two-party system. Now along comes the National Issues Committee, "a non-partisan, non-profit educational association," headed by Mrs. Franklin D. Roosevelt, chairman. The board members are the usual names, with a new one here and there, the same names that one finds on so many committees.

This committee puts out a Washington newsletter, which is a euphemism for a great many propaganda sheets. The object of the newsletter is "you can help get the facts around." So I looked at the first issue that came to hand which contained this item:

"Denver: The Post (for Eisenhower in 1952) has completed a national survey of what it calls 'applied mccarthyism' in the schools. Among its extensive findings: Local FBI agents in Utah, Ohio, Colorado, California, Illinois, Michigan and Pennsylvania have been volunteering derogatory information about school teachers to state officials.

"'School teachers all across the country,' says The Post, 'are operating under the all-seeing eyes of the FBI.' " It would be of great value if The Issue, as the newsletter is called, would provide some evidence of the "applied mccarthyism" of the FBI. It would also be of value if "applied mccarthyism" were defined and the relationship of it to the FBI were made clear. The "m" beginning the word, "mccarthyism," is spelled with a small letter which may be clever but is not grammatical no matter who does it.

Furthermore, what is the derogatory information that the FBI is supplying to state officials and is this supply voluntary or is it being requested to safeguard the schools from Communists, subversives and spies?

I have here quoted the item in full. There is nothing more to it. Perhaps if you want more evidence, or a better explanation, you can write the Denver "Post" and get it from them. Perhaps they will send you their survey. It looks funny to me because if the FBI undertook to watch, screen, check and report on every school teacher in the United States, it would have to have a staff five or six times larger than has been provided by the budget.

Who is trying to scare school teachers? Most of them -the vast majority of them-are loyal Americans with no subversive or Communist affiliations. That would be true of Americans in any walk of life. For what reason is this scare pitched into the teaching profession?

It is no secret that an attack on the FBI has long been in the making. It started in the Truman administration when Max Lowenthal, a New York lawyer, wrote a book which was a violent attack on the FBI, not a studied criticism but a propaganda to break down popular faith in this organization. This was followed by some magazine articles along the same lines. During the McCarthy-Stevens hearings an effort was made to drag the FBI and J. Edgar Hoover into the case by constant references to them, the enemies of the FBI hoping that somehow they would be able to prove that FBI files were being given to the McCarthy and other committees of

All these efforts flopped because the American people stood by this investigative agency, and the personal popularity of J. Edgar Hoover has not suffered from these attacks.

The FBI, like any other agency which uses taxpayers' money, should be subject to criticism, analysis, scrutiny. No government agency should be sacrosanct. But the type of attack now used is not criticism; it is an effort to give a false impression that the FBI is doing what it has no right to do and therefore is setting itself up as a cultural police force. This is literally untrue.

This writer last spring, while talking to a prominent official of an important European government, found him asking about the probable outcome of the congressional elections. When told that the Democrats might get control, the official remarked: "Well, Ike will get along well with them, as he is more of a Democrat than a Republican anyhow, isn't he?"

Judging by the way the President has accepted the advice and guidance of the "left wing" of his party, it would appear that he believes in many, if not all, of the lieved that at heart he was a better policies of the Roosevelt-Truman served. It seems natural for him, therefore, to be fighting the "right wing" Republicans who themselves have criticized his close friend, General Marshall, and Secretary Acheson and other officials of the Democratic administration.

President Eisenhower is very popular with the Democrats and certainly, now that he has made common cause with the so-called "left wing" in the Republican party, it would not be illogical if the "left wing" Democrats should want to sec him nominated on their ticket, too, so as to assure the "left wing" of continued control of the whole government.

It would, to be sure, be a novelty to have a president nominated by the two major parties - but it is possible, since the primaries in most states are open to anybody and a write-in is permitted in several states. In California Senator Knowland was nominated in the primaries of both the Republican and Democratic parties and had no opposition in the election for his present term.

Notwithstanding this and the fact that the California senator has voted in Congress for 87 per cent of the Eisenhower program, he is called a "right wing" Republican by the "left wing" press. It must be that any senator who deviates only by the slightest margin from the administration is promptly put in the political doghouse by those who purport to speak for or reflect the viewpoint of President Eisen-

A presidential nomination for the same man by two parties would not be unnatural in a period when the trend toward one-man government and a one-party government continues - as dissenters are condemned, censured or threatened with the "purge." This is certainly normal in one-party countries.

Greenspun Indictment

One of the most interesting legal straws in the McCarthy political wind comes up next week in Nevada when U.S. Judge John R. Ross will rule on a motion to dismiss the indictment of Editor Hank Greenspun for allegedly endanger-

stating that he was likely "to come to a violent end."

The indictment was brought when McCarthy was basking in the benign smile of the White House. The dismissal will be passed upon

next week when that smile has vanished. However, it will be passed upon the government, pays his travel ex- by a federal judge who was appointed on the recommendation of

GOP Senator "Molly" Malone, one of McCarthy's close friends who voted for him right down the line. The indictment has considerable

ramifications. Greenspun, editor and publisher of the Las Vegas Sun, had hurled charges at Mc-Carthy which no other newspaper had printed. But he was not indicted for these charges. What happened was that McCarthy sent to the Post Office Department a particular column which contained the words

"Joe has to come to a violent end . . . Live by the sword and you die by the sword. Destroy people, and they in turn must destroy

McCarthy suggested to his friend, Postmaster General Summerfield, that, in view of this alleged incitement to assassinate. Greenspun's second-class mailing privileges should be canceled. But Summerfield referred the matter to the Justice Department, which, much to the surprise of everyoneincluding, it was reported. Mc-Carthy-indicted Greenspun.

The same column, however, contained a repetition of Greenspun's earlier charges that McCarthy was a "pervert," made repeatedly by the Sun and mailed all over the United States, though McCarthy had never sued. This was made a part of the court record, thereby making it privileged. Since then it has been published by Time magazine and various newspapers.

So the Justice Department, instead of doing McCarthy a favor of prosecuting Greenspun, may have done the reverse.

### Parking Tickets **And Discrimination**

One of the advantages of being the editor of a newspaper is that you have the opportunity or the privilege to sound off publicly about things to which you take exception.

At this moment we are complaining because our feelings of justice and equity have been disturbed by a member of the Police Department.

We have been, we feel, the victim of undue discrimination in the issuance of parking tickets.

Over the years we have paid our share of parking tickets, issued legitimately for overtime parking on parking meters. Never have we voiced a squawk. Nor would we now had we and two other autoists been accorded the same treatment as four others parked along Canal Street.

At the time we have in mind, yesterday afternoon, eight automobiles were parked on Canal Street between Mechanic and the Western Maryland Railway. Six of them were parked on meters, but only one legally, time having expired on the others. Of the two remaining cars, one was parked on a red line beside a fire plug and the other on a combination red and yellow line.

Of the seven illegally parked automobiles, only three received tickets and the other four went free. When the policeman who issued the tags was

asked, "Why did I get a ticket and the rest of these people didn't?", his answer was "I ran out of tickets." He added that he was going to police headquarters to get some more and the intimation was that he would be back.

Two and a half hours later (it takes less than five minutes to walk to police headquarters), one of the untagged cars remained untagged and no money had been put in the meter. One of the tagged cars now had money in the meter, the second tagged car was still in violation and the third one had moved on. A fourth car, the one parked on the red and yellow line, was still there and untagged and the rest of the original eight cars had moved away.

We are not complaining about receiving a ticket for a parking meter violation of which we were guilty, but we are complaining about the inequity and the discrimination. If one car was tagged for violation, then the others should have been. If some were not tagged, then none should have received a ticket.

If you perhaps have gotten a ticket in the past under circumstances similar to those above, you certainly are free to feel that we are speaking in your behalf too. If the parking laws are going to be enforced, they should be enforced for everyone.

### Another One Of Those

Apparently there are limitless funds for all sorts of efforts to flood the country with one side of the problems that face us. There is the ADA (Americans for Democratic Action), the National Committee for an Effective Congress which collects money for congressional campaigns and passes it on to favorites of both parties, thus breaking down the two-party system. Now along comes the National Issues Committee, "a non-partisan, non-profit educational association," headed by Mrs. Franklin D. Roosevelt, chairman. The board members are the usual names, with a new one here and there, the same names that one finds on so many committees.

This committee puts out a Washington newsletter, which is a euphemism for a great many propaganda sheets. The object of the newsletter is "you can help get the facts around." So I looked at the first issue that came to hand which contained this item:

"Denver: The Post (for Eisenhower in 1952) has completed a national survey of what it calls 'applied mccarthyism' in the schools. Among its extensive findings: Local FBI agents in Utah, Ohio, Colorado, California, Illinois, Michigan and Pennsylvania have been volunteering derogatory information about school teachers to state officials.

" 'School teachers all across the country,' says The Post, 'are operating under the all-seeing eyes of the FBI.' " It would be of great value if The Issue, as the newsletter is called, would provide some evidence of the "applied mccarthyism" of the FBI. It would also be of value if "applied mccarthyism" were defined and the relationship of it to the FBI were made clear. The "m" beginning the word, "mccarthyism," is spelled with a small letter which may be clever but is not grammatical no matter who does it.

Furthermore, what is the derogatory information that the FBI is supplying to state officials and is this supply voluntary or is it being requested to safeguard the schools from Communists, subversives and spies?

I have here quoted the item in full. There is nothing more to it. Perhaps if you want more evidence, or a better explanation, you can write the Denver "Post" and get it from them. Perhaps they will send you their survey. It looks funny to me because if the FBI undertook to watch, screen, check and report on every school teacher in the United States, it would have to have a staff five or six times larger than has been provided by the budget.

Who is trying to scare school teachers? Most of them the vast majority of them-are loval Americans with no subversive or Communist affiliations. That would be true of Americans in any walk of life. For what reason is this scare pitched into the teaching profession?

It is no secret that an attack on the FBI has long been in the making. It started in the Truman administration when Max Lowenthal, a New York lawyer, wrote a book which was a violent attack on the FBI, not a studied criticism but a propaganda to break down popular faith in this organization. This was followed by some magazine articles along the same lines. During the McCarthy-Stevens hearings an effort was made to drag the FBI and J. Edgar Hoover into the case by constant references to them, the enemies of the FBI hoping that somehow they would be able to prove that FBI files were being given to the McCarthy and other committees of Congress.

All these efforts flopped because the American people stood by this investigative agency, and the personal popularity of J. Edgar Hoover has not suffered from these attacks.

The FBI, like any other agency which uses taxpayers' money, should be subject to criticism, analysis, scrutiny. No government agency should be sacrosanct. But the type of attack now used is not criticism; it is an effort to give a false impression that the FBI is doing what it has no right to do and therefore is setting itself up as a cultural

police force. This is literally untrue. (Copyright, 1954, King Features Syndicate, Inc.)

## Ike Conceivably Could Be Nominated By Both Parties

By David Lawrence

time General Dwight Eisenhower. while chatting with a soldier friend, said that he would like to run for president but only if he could be nominated by both political parties. This happened not so many years ago, when the Eisenhower name was already beginning to appear in the newspapers as a possible presidential nominee. The soldier friend said that such a development would not be welcomed because it would eliminate the two-party system which is so traditional in America, but Mr. Eisenhower clung to the concept until he was forced to choose between a Democratic and a Republican presidential nomination. But now that he has to deal with a Democratic Congress, the president relishes the prospect of play-

It wouldn't be surprising if in 1956 the idea of nominating President Eisenhower on both party tickets comes up for public discus-

WASHINGTON - Once upon a

For Mr. Eisenhower has managed in recent weeks to extricate himself from the position of a party man, and most of his political fighting has been inside the Republican party.

#### Won Democratic Leaders

Today the so-called "left wing" in the Republican party - if that be the proper term to use as the opposite of what the pro-Eisenhower folks now call the "right wing" - is enthusiastically praising the President's "leadership" in that respect and is rejoicing over the defeat, if not the complete overthrow, of the Republican "right wing."

These "left wing" Republicans are saying that the recent vote in the Senate was a clear-cut division between the two factions of the party and that it proves Mr. Eisenhower now is leader and can afford to ignore, if not further condemn and run out of the party, those who do disagree with him. At the moment, moreover, warm words of praise are being given to

the President for having successfully wooed the Democratic leaders in Congress to his side this week. The assumption is that he will get even more help from the Democrats next session than from the so-called "right wing" Republicans and that he will thus reconstitute his majority by building it out of the Democrats in Congress and a big chunk of the Republican

Mr. Eisenhower was opposed for the nomination by many of the Taft men in the Republican party in 1952 primarily because they believed that at heart he was a better Democrat than Republican. In fact, that's his reputation abroad. The moment the news dispatches record Mr. Eisenhower as favoring bigger spending programs for them and as saying or doing things to disassociate himself from the socalled "right wing" Republicans, the more popular he becomes in the eyes of the European press. They have an almost atomic terror

about the possible stoppage by "right wing" Republicans of the flow of billions to Europe.

This writer last spring, while talking to a prominent official of an important European government, found him asking about the probable outcome of the congressional elections. When told that the Democrats might get control, the official remarked: "Well, Ike will get along well with them, as he is more of a Democrat than a Republican anyhow, isn't he?'

Judging by the way the President has accepted the advice and guidance of the "left wing" of his party, it would appear that he believes in many, if not all, of the policies of the Roosevelt-Truman administrations under which he served. It seems natural for him therefore, to be fighting the "right wing" Republicans who themselves have criticized his close friend. General Marshall, and Secretary Acheson and other officials of the Democratic administration.

It is undoubtedly true that today President Eisenhower is very popular with the Democrats and certainly, now that he has made common cause with the so-called "left wing" in the Republican party, it would not be illogical if the "left wing" Democrats should want to se, him nominated on their ticket, too, so as to assure the "left wing" of continued control of the whole government

It would, to be sure, be a novelty to have a president nominated by pior nartice - but it is possible, since the primaries in most states are open to anybody and a write-in is permitted in several states. In California Senator Knowland was nominated in the primaries of both the Republican and Democratic parties and had no opposition in the election for his present term.

Notwithstanding this and the fact that the California senator has voted in Congress for 87 per cent of the Eisenhower program, he is called a "right wing" Republican by the "left wing" press. It must be that any senator who deviates only by the slightest margin from the administration is promptly put in the political doghouse by those who purport to speak for or reflect the viewpoint of President Eisen-

A presidential nomination for the same man by two parties would not be unnatural in a period when the trend toward one-man government and a one-party government continues - as dissenters are condemned, censured or threatened with the "purge." This is certainly normal in one-party countries.

## Wood Tick Is Culprit In Most Tick Paralysis Cases

Several years ago, I wrote about a 4-year-old girl who was bitten by a tick. As a result, paralysis began in the arms and legs and before long, spread to the neck and breathing muscles. The youngster was kept alive in a respirator.

The cause of her illness was not known until the seventh day when an egorged tick was discovered on tem her scalp. Within 24 hours, dramatic recovery followed its removal; by the end of the second day the little one had regained much of her strength. This child had been suffering from tick pa-

All this was one reason why Senator Johnson, during the two-hour White House meeting, told Eisenhower that it wasn't much use to talk about certain subjects without the committee chairmen present.

Greenspun Indictment

One of the most interesting legal straws in the McCarthy political wind comes up next week in Nevada when U.S. Judge John R. Ross will rule on a motion to dismiss the indictment of Editor Hank Greenspun for allegedly endanger-

stating that he was likely "to come to a violent end."

The indictment was brought when McCarthy was basking in the benign smile of the White House. The dismissal will be passed upon next week when that smile has

vanished. However, it will be passed upon by a federal judge who was appointed on the recommendation of GOP Senator "Molly" Malone, one

of McCarthy's close friends who voted for him right down the line. The indictment has considerable ramifications. Greenspun, editor and publisher of the Las Vegas Sun, had hurled charges at Mc-Carthy which no other newspaper had printed. But he was not indicted for these charges. What happened was that McCarthy sent to

the words: "Joe has to come to a violent end . . . Live by the sword and you die by the sword. Destroy people, and they in turn must destroy

the Post Office Department a par-

ticular column which contained

McCarthy suggested to his friend, Postmaster General Summerfield, that, in view of this alleged incitement to assassinate. Greenspun's second-class mailing privileges should be canceled. But Summerfield referred the matter to the Justice Department, which, much to the surprise of everyoneincluding, it was reported, Mc-

Carthy-indicted Greenspun. The same column, however, contained a repetition of Greenspun's earlier charges that McCarthy was "pervert," made repeatedly by the Sun and mailed all over the United States, though McCarthy had never sued. This was made a part of the court record, thereby making it privileged. Since then it has been published by Time magazine and various newspapers.

So the Justice Department, instead of doing McCarthy a favor of prosecuting Greenspun, may have done the reverse.

DAILY CRYPTOQUOTE—Here's how to work it: AXYDLBAAXR is LONGFELLOW

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

In memory of our dear father and grand-ther, Mr. W. L. Castle, who died 4 years o. Dec. 18, 1950. Father dear when you were here We had your loving care
And none can ever take your place
Or fill that vacant chair.
You were the sunlight of our home

Till God took you away
But we never will forget you
And we will meet him, Heaven we pray,
Sadly missed by
Mr. & Mrs. William E. Castle

and see her smiling face.
Days of sadness still come over us,
Tears it. silence often flow.
Memory keeps her ever near us.

In memory of our dear father and grand-ther, Mr. W. L. Castle, who died 4 years Dec. 18, 1950. Father dear when you were here We had your loving care
And none can ever take your place
Or fill that vacant chair.
You were the sunlight of our home God took you away And we will meet him, Heaven we pray.

Sadly missed by
Mr. & Mrs. William E. Castle
